FIENERBA RYEGRASS

FOR THE SENSITIVE HORSE

Fienerba Ryegrass is a **high-value biological feed made from 100% Italian Ryegrass (Lolium Multiflorum)**, offering twice the nutritional value of traditionally dried ryegrasses.
Its consistent composition in terms of organoleptic qualities and nutritional value ensures a controlled and **steady dietary intake over time**. It has a moderate protein content and an excellent proportion of digestible fibre, which supports proper intestinal function in horses.

Being composed of a single type of grass grown in purity, it is recommended for the management of **ALLERGIC HORSES OR HORSES WITH SPECIFIC FOOD INTOLERANCES TO LEGUMES.**

Rich in water-soluble carbohydrates, which provide a readily available energy source, it is the **perfect ally for allergic horses engaged in sports activities.**
It enhances oxygenation and muscle activity, supports performance, and helps prevent declines in physical condition.

When used regularly, it **protects the respiratory system** of a healthy horse and keeps it efficient; it alleviates discomfort and reduces symptoms in horses suffering from respiratory disorders.

Ryegrass guarantees consistent quality and contains **NO** additives, colourants, molasses, or flavour enhancers.

Typical analysis (average values % dry matter):

Moisture	30-50
Crude Protein	8,00-9,00
Crude Fibre	30,00-34,00
Ash	7,00-8,30
Crude Fat	2,00-3,00
Carbohydrates (WSC)	20,00-25,00%

Recommended daily dosage
Administer from 1.5 to 2 kg per 100 kg of the horse's body weight, depending on the type of horse and the work it is subjected to.
Introduce gradually into the diet.

COMPOSITION: Selected varieties of Italian Ryegrass

20kg bag containing 4 slices of 5kg each.
Any swelling of the bag does not affect the quality of the product.

Ryegrass is:

WITHOUT DUST

READILY AVAILABLE ENERGY

CONSISTENT NUTRITIONAL SUPPLY

BETTER BREATHING

BETTER ATHLETICISM

BETTER OXYGENATION

BETTER PERFORMANCE
